

Cultural Activities

Education is not just confined to imparting academic knowledge to the students. However, it is more about holistic development.

The University engages the students in various cultural activities throughout the year. There are numerous committees in the college which perform different functions. The importance of social and cultural activities lies in preparing students for real life and strengthening their skills. Social/cultural activities not only help students to identify themselves with the University but also assist students to develop themselves in the desired field and also improve skills such as organizational, presentation, leadership and interpersonal communication.

As social and cultural activities are of paramount importance, the University encourages all extra-curricular activities that are both in line with the educational objectives of the institution and meet the needs of the students.

Culture can be defined as the arts as well as the intangible shared beliefs, values, and practices of a community. Students participate in arts and culture at varying levels of skill and engagement. Some create, while others listen to, watch, teach, critique, or learn a cultural activity, art form, or expression. Some are professional artists, designers, and inventors, while others engage informally in expressive activities or create innovative tools, relationships, or products.

Universities encourage participation in cultural activities to promote creative expression, team building, and holistic development. Different types of cultural activities can give different exposure to students. These instill confidence in students and foster a better understanding of the surroundings. The cultural activities also instill life skills and social skills in the students.

Cultural activities facilitate the holistic development of students. With these, the students no longer remain bookworms. They study, participate in different activities and follow their passion.

The University organized orientation programme for freshers and we have been celebrating National Festivals, Kannada Rajyotsava, Yoga Day and World Environment Day.
